Spanish Version: Nuestro planeta continua recibiendo visitas de alienígenas venidos de más allá de la naturaleza. Una nación no puede detectar las aves de la naturaleza y asaltar con sus aviones intergalácticos a los países vecinos. Sin duda, debemos esforzarnos para encontrar una explicación que explique la existencia de una nueva y temible alianza internacional. Asimismo, no es solo nuestro planeta el que está siendo tocado por alienígenas venidos de más allá de la naturaleza. En la antigua, medieval y moderna cultura, hemos tenido un serie de creencias que simplemente no pueden explicarse ni comprenderse por nuestras habilidades mentales. Asimismo, la ciencia actual ya ha empeorado la credibilidad de las «estrellas de la Biblia» y demás mitos de la antigüedad. This invention relates to a method and a device for the use of the medical specialists to prepare the patients to the surgery. All the people know the beginning and the end of life and probably for all the people death is a gentle transition from reality to fantasy. People wish to live as long as possible and try to overcome their fears. But no one wishes to die. A death is a painful event. Sometimes people go crazy. This phase is associated to grief and to a person death is a kind of a step backwards in the evolutionary process. People have to be prepared for the death of the beloved ones, of the friend or of the colleague. This preparation includes a psychological as well as a spiritual or personal state of mind, ethical and legal issues and of course financial matters. In many of our scientific papers there is an article about a librarian, who dealt with end of life patients. He gave a psychological support and he tried to help the patients to deal with the end of their life. The vital psychological elements are discussed. Probably all the people search for an ideal state of mind. I know that I am a cheerful person and I am afraid to die. I always wished to live longer but I do not want to die. The idea of an ideal state of mind is a kind of an illusion. It does not exist. The state of mind depends on the person and on the situation. For example
